altevo

Software development, *done right*

Since 2018, Altevo has been helping innovative organizations build custom technology solutions. Specializing in web and cross-platform development, we transform bold ideas into concrete, well-designed software products made to improve daily life.

Our Offer

Custom Software Development

Do you have an idea for a SaaS, web app, mobile app, or digital platform? We turn your vision into a concrete, robust product ready for the market. From design to development, we handle the entire project to deliver high-performance platforms ready for your users.

- Web and Mobile Applications
- SaaS
- IA
- Interactive Kiosks
- API
- E-commerce
- Software Architecture
- Client Portals
- Maintenance

Operations Optimization

Are your internal processes slowing down your growth? We help you automate your workflows, connect your systems, and eliminate wasted time. Whether it's integrating your tools, reducing manual tasks, or leveraging artificial intelligence, we build concrete solutions tailored to your reality.

- AI Agents and Intelligent Systems
- Software Integrations
- Automation
- Custom Software Development

Analysis and Discovery Workshops

Before developing, you need to understand what you really need to build. These collaborative workshops help identify your needs, define key features, and validate your ideas. Our analysis phase frames your project, reduces risks, and ensures predictable and profitable development.

- Business Analysis
- Requirements Definition
- Strategy
- UX/UI
- Software Architecture
- Prototyping
- Technical Feasibility Analysis
- Database Design
- Feature Prioritization

Technical Expertise

Backend

- C#
- Node.js
- Nest.js
- PostgreSQL
- MongoDB
- TypeScript
- AI SDK
- Power BI
- SQL Reporting
- GraphQL / REST

Frontend

- React
- Remix
- Vue.js
- Angular
- Tailwind CSS
- Next.js
- TypeScript
- Figma
- Astro
- Playwright

Infrastructure

- AWS
- Azure
- GCP
- GitHub Actions
- GitLab CI
- Azure DevOps
- Pulumi
- Terraform
- Docker
- Vercel

We are a member of the Diapason collective

Diapason is a network of over 35 design and digital experts. Through this collaboration, we offer our clients a wide range of services comparable to those of large agencies.
